A Message from Shannon Pearce

We welcome you to the Colt .45 Ranch and our 2nd horse sale in 40 years of business.

To introduce ourselves, my wife Katie and I have been married 33 years. We raised 8 children and now have 7 grandchildren. I grew up ranching in Idaho, Oregon and Nevada and rode a lot of horses on my parents' ranches. I trained horses for the public 23 years and during that time I found that good horses were bred to be good and bad horses were bred to be bad. I traveled a million miles for four decades looking at horses, studying pedigrees, visiting great breeders and trainers, learning the bloodlines and families of horses across the nation.

We have come home for decades with some of the greatest cowhorses and rope horses in the world. We always liked the great horses that were bred a little differently than the mainstream horses of the day. We feel that many of the genetic disorders that are in the Quarter Horse industry today could have been eliminated by providing more outcrosses and not narrowing our gene pool so much.

Through the years, great mares and stallions surfaced many times in less than obvious places. The breeding of some horses is not as fashionable at one time as it is at another. Sport Model is a perfect example. Louisiana bred and a contemporary of Poco Tivio, Sport Model sired only half as many daughters yet he leads both Poco Tivio and Poco Bueno on the all time NCHA Broodmares list. Likewise, War Leo had not a fraction of the attention, yet sired more \$150,000 winners than his contemporary Doc Bar. Sometimes horses are noticed only after they are dead, such as Rey Jay (6X Old Sorrel and a valuable outcross) yet he went generally unknown until 1976 when two of his grandsons, Colonel Freckles and Freckles Playboy swept the NCHA Open Futurity. Quality was not changed, only noticed and Rey Jay is a household word today.

Chickasha Mike was World Champion NCHA Open Stallion in 1955. He only had 13 daughters yet 9 of those produced a finalist or several in the NCHA Futurity. The only one to be bred to Doc Bar produced the great Docs Hickory, the leading sire son of Doc Bar. The famous cross of the day was Poco Tivio or Poco Bueno. Because Handle Bar Doc was not out of a Poco mare, he didn't catch on in fashion, yet he was Doc Bar's highest money earner and only world champion son. His dam was a great mare who went to Clabber, Oklahoma Star, Joe Hancock and Midnight Jr. (No wonder he was durable).

Lonsum Tiger was one of my favorites. Probably the greatest minded and most durable family of horses I have ever known; and Lonsum Tiger beat Doc's Oak in the NCHA top ten and Freckles Playboy.

Our breeding program is based on these world-class outcrosses. We have foals and young stallions in this sale who I believe are as good as anywhere in the nation with these great bloodlines. We have had eight grandsons of Leo, two sons and two full sisters of the legendary Mr. Gun Smoke (as well as six half sisters and several daughters). We have also stood four stallions with Joe Hancock on their papers. Our foundation mares who built our program boast some of the most unusual breeding: Chickidee Maria, Kindy Kinkade, Miss War Frost, Lonsum Hannah 045, Jody Sarah 045, Cub River Doll, Sport Model Royal, Price Flicka Leo, Could, Peaks Lady Dodger, Jae Bar Jane, Tabano Jill, etc (see

Foundation Mares on our website:
www.colt45ranch.com/foundation/mares).

I've done pedigrees at many horse sales across the nation, so ask me about any you have questions about. Read our catalog or call or come by. We have worked hard for four decades to produce this set of horses.

We welcome you and are honored that you are interested in our breeding.

Terms & Conditions of Sale

All sale horses will be sold with American CowHorse Association (ACHA) papers. Lots 63, 64, 65, 66 and 68 will be sold with both ACHA and American Quarter Horse Association (AQHA) papers.

All sale horses are eligible to be registered with AQHA with the exception of lots 6, 7, 20, 25, 28, 29, 42, 45, 50, 54, and 57 as both parents are not registered with AQHA in each case. If required by the customer for any of these lots, Colt .45 Ranch is willing to submit the necessary information to have the sire and/or dam of the purchased horse registered with AQHA. However, the customer will be subject to the stallion breeding report fees, DNA typing fees and all other AQHA fees entailed in the process.

Terms of the sale are cash, payable in U.S. funds. Personal checks are considered cash. Credit card users will be charged a 3% convenience fee.

We strongly urge buyers to examine the horse(s) that interest them because all sales are absolute and final.

Horses are at the buyer's risk, expense and responsibility from the time of purchase. We will do our best to work with the customer on horse transportation arrangements.

Every effort has been made to insure that the information contained in the catalog is correct. Announced changes in catalog information on sale day take precedence over printed material in this catalog.

All persons who attend this sale do so at their own risk. Neither sale management, owners nor anyone else connected with this sale assume any liability, legal or otherwise.

All broodmares will be sold as pasture bred. Mares will be sold as "exposed" to stallions, but not guaranteed as pregnant.

Health certificates will be issued on request for transport purposes on sale day. All horses will be EIA (coggins) tested prior to the sale.

One of the truly uniquely bred stallions in the world, Leo, King, Oklahoma Star breeding, no Poco, Freckles, Peppy, Doc Bar, or Three Bars. A true out-cross that is especially valuable because of his bone, feet, carriage, flexibility, train-ability, natural stop and cow, a black type female family. His foals are widely used from professionals, cowboys, cutters, reiners, ranchers, and 4-H.

THE AMERICAN COWHORSE ASSOCIATION

The Horses for Cowboys and Ranchers

The cowboys and ranchers of the 40's, 50's and 60's wouldn't have stood for an association that has regulated and increasingly charged like some associations do. And, with the threat of some of these associations joining with animal rights groups to jeopardize our property rights, we feel a need to reduce the association bureaucracy by building a new association based on the good horses and good cowboys and ranchers that were riding decades before certain associations started. As Thomas Jefferson stated, "He who governs least, governs best." If the cowboys in 1923 could produce a thoroughbred Percheron cross colt by the name of Joe Hancock that has become one of the five most influential cowboy horse sires of all time, why would we restrict that successful effort again? If someone doesn't like the way a horse is bred or performs he simply will not buy him. Let the market set the demand.

This registry, **The American CowHorse Association**, "*The Horses for Cowboys and Ranchers*", will accept all horses, if a horse is considered good enough to be bred and raise another like it for some cowboy, it is worth noting the pedigree and registering. Quarter Horses have descended from Thoroughbreds, Percherons, Arabians, Morgans, Saddlebreds, Ponies, Mustangs, and unknowns. Now that the gene pool has been dangerously narrowed in the name of magnifying by artificial insemination, Embryo Transplant, over advertising certain stallions and mares that were suppose to "improve the breed", but have narrowed the gene pool where it is hard to find a viable outcross to keep genetic diseases out. Now Hypp and herta skin diseases are a result of over emphasizing popular stallions and forgetting great stallions that are not in the spotlight. Sport Model is a perfect example, Louisiana bred, and a contemporary of Poco Tivio and Poco Bueno (the headquarters of Herta Skin disease), sire of only a fraction of as many daughters, leads both Poco Tivio and Poco Bueno on the all-time NCHA broodmares list. War Leo had not a fraction of the attention, yet sired more \$150,000 winners than his famous contemporary Doc Bar. Sometimes horses

are noticed only after they are dead, such as Rey Jay (6 Times Old Sorrel and a valuable outcross) yet in 1976 when Colonel Freckles and Freckles Playboy swept the NCHA Open Futurity quality was not changed, only noticed.

Horses with **The American CowHorse Association** can, as always, perform in all events sponsored by PRCA, NCHA, USTRC, NRHA, all Snaffle Bit Futurities and many others. They are only not eligible to compete in AQHA events, unless they have dual registration.

In **The American CowHorse Association**, there are no membership fees. Registration is not restricted by age, gender, color, size or breed, and is currently only \$20.00. There are no DNA expenses, no Stallion Breeding Report fees or Mare Filing fees. The breeder is responsible for his knowledge of the breeding he signs for. The Internet offers pedigree information that is free under www.allbreedpedigree.com.

Times are tough. America is in a crisis caused by the cost of a government doing things we can't afford; things we should be doing ourselves at a fraction of the cost. In the horse world, let's stay within our own budgets.
